PM9

THIN BLUE LINE

Every day hundreds of thousands of law enforcement officers across America form a "thin blue line" between good and evil. They place their lives at risk to protect their fellow citizens from crime. In doing so, they deserve the respect and gratitude of those they serve. Kahr Firearms Group has chosen to honor the men and women of law enforcement with a new pistol called the "Thin Blue Line".

Working in conjunction with Kahr's Law Enforcement Pro Staff, the PM9 model pistol was selected for this custom series. The PM9 represents an excellent choice for duty use as a backup or concealed carry pistol. To further enhance the firearm, the Thin Blue Line series slide is finished in durable Armor Black Cerakote. All other exposed metal parts are blacked out, and a blue line is added encircling the slide. Versatile, rugged, and easy to see TruGlo Night Sights top the slide.

A lifetime warranty guarantees the ultimate customer support. The Thin Blue Line PM9 is an ideal choice for anyone needing reliable, accurate, easy to carry personal protection. Whether private citizen or law enforcement officer, be proud to carry the Thin Blue Line honoring those who walk the line every day.
