Kahr® Arms Partners with Davidson's to Introduce Gold .380 ACP

Greeley, PA – Once again, Kahr Arms has partnered with Davidson's to offer a limited edition exclusive double-action semi-auto micro-compact pistol in .380 ACP. The CW3833CG is offered in an attractive Cerakote Gold finish and can only be purchased through Davidson's and the Gallery of Guns website for a limited time.

The CW3833CG features a 2.58 inch conventional rifled barrel, an overall length of 4.96 inches, a height of 3.9 inches and it weighs just 10.2 ounces. The pistol has a black polymer frame and a stainless steel slide. The attractive gold features can be found in the slide, trigger, and the slide stop lever giving it an opulent appearance.

The pistol features a lock breech, modified Browning type recoil lug, and utilizes Kahr's seven patents including the "safe cam" action found in all Kahr pistols. The result is a micro-compact pistol with very little recoil and quick follow-up shots. The pistol also has a drift adjustable white bar-dot combat rear sight and a pinned-in polymer front sight. It has a 6+1 capacity and comes with one 6-rd magazine. The high temperature gold Cerakote coating is a multi-step process which results in a durable finish that holds up well under normal use.

This highly sought after attractive gold pistol can only be purchased through Davidson's and the Gallery of Guns website for a limited time. It is shipped with two magazines and has a MSRP of \$439. To purchase it, please visit www.galleryofguns.com. Just click on the Gun Genie and enter item number CW3833CG. For more information about the fine line of Kahr pistols, visit www.kahr.com.
