**FOR IMMEDIATE RELEASE**

**Introducing Night Sights for Kahr® C-Series Pistols**

**Pomona, NY** – Night sights have grown in popularity over the last few years, due primarily to the growing interest in personal protection. Because night sights work in low, or no light situations, it makes them perfect for home protection, especially if the need arises to seek out your weapon very quickly in the dark.

Kahr Firearms Group has just announced that some of their C-Series pistols will now be offered with night sights. Three of their most popular 9mm models; the CM9093N, CW9093N, and the CT9093N will now be available with night sights. All three models feature a black polymer frame, matte finish stainless steel slide, a drift-adjustable white bar-dot combat rear sight, and a pinned in polymer front night sight.

The CM9 features a 3.1” barrel length; an overall length of 5.42”, a slide width of .90”, the height is 4.0” and weighs in at just 14 oz. It has a 6+1 capacity and comes with one 6-round flush floorplate magazine. The CW9 features a 3.56” barrel, an overall length of 5.9” and a height of 4.5”. It weighs 15.8 oz. without the magazine. Capacity is 7+1, and comes with one 7-round stainless magazine. Lastly, the CT9 offers a 3.965” barrel, an overall length of 6.5”, a slide width of .90”; height is 5.08” and weighs just 18.5 oz. without the magazine. Capacity is 8+1 and comes standard with one 8 rd. stainless magazine. Cost of the three models featuring night sights is \$499 for the CM9093N, \$495 for the CW9093N, and \$485 for the CT9093N.
