

Kahr Firearms Groups Lends its Support to the Vital Mission of Big Sky Bravery

Press Release: October 18, 2021

Supporting America's Heroes

Greeley, PA: Kahr Firearms Group is proud to support Big Sky Bravery (BSB), an organization founded by veterans, dedicated to providing support for America's elite warriors. Big Sky Bravery works with the Special Operations Forces community to provide post-deployment programs aimed at decompression and restoration for active duty personnel. BSB is specifically focused on active duty members of the SOF community. It is a civilian organization that is 100% funded by donations, and with the exception of a small full-time staff, all volunteer based. The recipients of BSB's programs travel to Montana for a week of experiences that only Montana can offer. Activities are provided that are physically rewarding to these elite individuals, while encouraging an atmosphere that is relaxing and conducive to "resetting" them before they return to work. To find out how you can assist Big Sky Bravery, visit their website at <http://www.bigskybravery.org/>. Please watch this video to learn more about their mission: <https://vimeo.com/295839542>. Kahr Firearms Group is dedicated to providing assistance to veteran charities, and asks that you consider giving your support to Big Sky Bravery in their work to help America's brave special operations veterans. As Jodi DePorter, Director of Marketing for Kahr Firearms Group said, "Everyone at Kahr feels an enormous debt of gratitude to the members of the special operations community for their service and sacrifice on our behalf. We will always rise to the call to provide help to veterans like these when in need."
