KAHR ARMS PARTNERS WITH GALLERY OF GUNS TO INTRODUCE TWO NEW PISTOLS

CW380 Patriot Brown
 Calibre: .380 ACP
 Capacity: 6 + 1
 Weight: 10.2oz (w/o mag)
 Grips: Textured polymer

Two new limited edition exclusive pistols in the attractive new Cerakote Patriot Brown finish are now on offer; let's take a look.

The Kahr CW383PBR and CW9093PBR can only be purchased through Gallery of Guns website for a limited time. The CW383PBR is offered in .380 ACP and features a 2.5in conventional rifled barrel, an overall length of five inches, height of 3.9 inches and weighs just 10.2oz. The pistol has a Desert Tan frame and stainless steel slide, trigger slide stop lever, all in Cerakote Patriot Brown.

The pistol features a lock breech, modified Browning-type recoil lug and utilises Kahr's seven patents, including the "safe cam" action found in all Kahr pistols. The result is a micro-compact pistol with very little recoil and quick follow-up shots. It also has a drift adjustable white bar-dot combat rear sight and a pinned-in polymer front sight. It has a 6+1 capacity and comes with one six-round magazine. Gallery of Guns offers this gun at \$449.

Also available in Cerakote Patriot Brown is the Kahr CW9093PBR. This pistol is offered in 9mm and features a 3.5in barrel, overall length of 5.9 inches, height of 4.5 inches and weighs just 15.8oz. Like the CW383PBR, this gun also has a drift adjustable white bar-dot combat rear sight and a pinned-in polymer front sight. It has a 7+1 round capacity and ships with one seven-round magazine. It too has a Desert Tan frame, and the stainless steel slide, trigger and slide stop lever are Cerakote Patriot Brown.

To purchase either of these pistols, your customers need to visit www.galleryofguns.com. Just click on the Gun Genie and enter item number CW383PBR or CW9093PBR. For more information about the fine line of Kahr pistols, visit www.kahr.com. All Kahr firearms are proudly made in the USA. 

CW9 Patriot Brown
