**Kahr Arms Introduces Special Edition "Thin Blue Line" PM9**

(Greeley, PA) - Kahr Firearms Group, a leader in innovative firearms design and manufacturing, is proud to introduce the Special Edition "Thin Blue Line" PM9.

Every day, hundreds of thousands of law enforcement officers across America form a "thin blue line" between a lawful and lawless society. They place their lives at risk to protect their communities from harm. In doing so, they deserve the respect and gratitude of those they serve. Kahr Firearms Group has chosen to honor the men and women of law enforcement with a new special edition pistol called the "Thin Blue Line".

Working in conjunction with Kahr's Law Enforcement Pro Staff Shawn Barry, the PM9 model pistol was selected for this custom project. To further enhance the firearm, the "Thin Blue Line" PM9 slide is finished in durable Armor Black Cerakote. All other exposed metal parts are blacked out, and a blue line is added encircling the slide. This special model comes equipped with easy-to-see TruGlo Tactical Night Sights. Two flush mount six-round magazines and one seven-round extended magazine are included. Each of which have been blackened for concealability. As with all Kahr Premium Series firearms, a full limited lifetime warranty is included.

"At Kahr Firearms Group, we have a deep appreciation of the sacrifices made by the law enforcement community," says Jodi DePorter, Director of Marketing. "We offer this product as a show of support and strength for those men and women in blue."

The "Thin Blue Line" PM9 is an ideal choice for anyone wanting a very rugged, reliable, accurate, easy to carry and conceal personal protection firearm. Whether a private citizen or law enforcement officer,

you can rest assured you are carrying a piece of American Pride and honoring those who stand along the "Thin Blue Line", protecting our communities.

MSRP for the "Thin Blue Line" PM9 is \$899. Contact your local firearms dealer to purchase.
